## **SUMMARY**

AI-first Salesforce developer with 6 years of experience building scalable, optimized, and user-centric solutions tailored to business needs. Strong in Apex, LWC, Flows, OmniStudio, Integrations and DevOps, with hands-on exposure to Agentforce, Prompt Builder, and AI-assisted development. A continuous learner and problem-solver focused on delivering high-quality, future-ready Salesforce solutions.

## **EXPERIENCE**

### **Salesforce Developer, K Square Group, September 2024–Current**

Hyderabad

- Led delivery of three Salesforce implementations for financial services institutions, driving 100% user adoption, 60% revenue growth, and 90% CSAT through scalable, business-aligned solutions.
- Architected and implemented custom workflows, flows, and enterprise integrations, ensuring secure data models, performance optimization, and long-term platform scalability.
- Partnered with stakeholders across business and IT to define solution designs, contribute to architecture decisions, and lead Agile/Scrum ceremonies from discovery through deployment.
- Acted as a technical SME and mentor, guiding junior developers through code reviews, best practices, and delivery standards to elevate overall team capability and solution quality.

### **Software Engineer, Prodapt Solutions, October 2021–September 2024**

Hyderabad

- Collaborated closely with business stakeholders and cross-functional teams to understand end-to-end requirements and deliver tailored, scalable solution designs aligned to business objectives.
- Contributed to 60% of overall development effort, building and maintaining complex workflows, Apex triggers, Visualforce, Lightning Web Components, Omni Studio components, and core Sales & Service Cloud functionalities, including process automation, data validation, and CRM customization, along with REST/SOAP-based third-party integrations.
- Authored technical documentation and release notes, championing best practices, data quality, and maintainable architecture, and designing effective solutions for complex business logic.
- Executed system integrations, unit testing, and glass-box testing; prepared detailed unit test cases; and delivered projects smoothly by following Agile/Scrum methodologies.

## **EDUCATION**

- B.Tech – Computer Science and Engineering, JNTU Anantapur, 2019

## **SKILLS**
